REF: Revision of Imperial Industries Silo Storage Plan

Management of Imperial Industries has made an agreement with Transport National for silo storage on one of their properties. This change is looking to have a positive impact on Imperial's ability to service our partners and customer base. This agreement will begin when the project is completed as per the customer's request date. If the customer is not ready for delivery at that time, the silos will be moved to Transport National's property and invoiced in its entirety as per Imperial's credit terms.

Transport National will take over all applicable storage fees and will bill the customer direct. The current fee schedule is currently established at **\$33.00 per day per silo**, and will be subject to change.

We feel that this change has many positive aspects and will ultimately be a significant benefit for our customers including: faster readiness to ship projects when required, equipment availability, and some cost savings to the customer will be realized.

After you have had a chance to review this information, if you have any questions, please give us a call.

Sincerely,
IMPERIAL INDUSTRIES, INC.

Tom Nomady
General Sales Manager
